Burglary

It is a fact that there are five Burglaries to every Fire; and yet practical people take chances on the BURGLAR.

A Burglar "ealls" at homes in which he knows are kept valuable jewels, money and plate. INSURE THEM against his visit. Though he may take nothing, the policy pays you for DAMAGE done,

DISCRIMINATING AGAINST PHILADELPHIA.

PHILADELPHIA, October 29.—Evidence of alleged discrimination against this port has been brought to light by Joseph A. Ball, of the Franklin Sugar Refinery, and it may be called to the attention of the Interstate Commerce Makes Loans on approved secur- Commission when complaint is again lodged by shippers.

According to Mr. Ball, the American-Hawaiian Steamship Company refuses Invites correspondence in refer- to deliver goods at this port, but carries Philadelphia cargoes on to New York, where they must be transhipped by rail to this city. The company, it is alleged, or the condition of any Hawaiian persists in this attitude, though its steamers call here regularly with sugar. It also refuses to load cargoes for Hawaii at this port, but insists that they be taken JOHN ENA, Am. sp., Madsen, from

He says he has taken the question up with various officials to have the Collects interest and dividends alleged discrimination ended, but says he was told "the time was not ripe" for change.

Shrine Victims Prepared for the Torture Chamber---Parade at 1:30.

Don't miss the Shriner parade this afternoon, for it will be better than a circus turnout, and the human novel proposed construction of a new dock. ties which Aloha Temple will exhibit to the populace will surpass Barnum's best efforts.

Twenty-nine Masons have aspired to wearing the fez, and they will wear them at the banquet tonight, if they pass the ordeal that will be handed them immediately after the parade. At 1 p. m. the novices will assemble at the K. of P. Hall, and from that time on they will obey the commands of every man wearing a fez. They will meet there in their old clothes, for there's no telling what may happen to their wearing apparel. That something terrible is coming may be judged by this notice to the novices which appears in the Temple's booklet:

"Aloha Nui, Malahinis.

"Dear Novices, now that you have paid your hard-earned money to join the Shrine, of course you expect something in return-you will get it. The best part of the entertainment to you will be what the other fellow receives, If you hear a blood-curdling yell in the antercom, laugh all you like; it isn't YOUR rib that is being cracked, Don't worry about getting your share of the performance; brotherly love never sleeps during a Shrine Ceremo-

"Therefore, present yourselves at K. of P. Hall not later than 1;30 p. m. on the fistive day of November 14. If the ceremony does not come up to your expectations, you can always get a rebate from Treasurer Webster, who keeps a special fund for this purpose.'

Any time between 1:30 and 2 o'clock he parade will start from the K. of P. Hall, corner of Beretania avenue and Fort street, and move down Fort to King, thence along King to the Executive building, where the aggregation will have its pictures taken, thence, to King, up Alakea to Beretunia, and thence to the K. of P. MARINES TO GUARD U. S. PROPERTY ASHORE

Major McKelvey, United States Marine Corps, who is a passenger on the transport Sheridan for Manila, was asked yesterday about the cable dislpatch in the Advertiser which stated that President Roosevelt had ordered all marines off warships to man the navy yards. The Major replied that the order meant that every marine would be sent ashore, leaving the war-

ships entirely to the sailor crews, The reason for the new move, he said, was due to the necessity for marine guards ashore, where their services were needed to guard public property, the shore demands being on a steady increase. The order, however, would not be permanent.

DIRECTOR NEWELL BELIEVES IN SMALL FARMS FOR HAWAII

"I believe that the small farms now springing to life in the arid West can be duplicated here in this Paradise of the Pacific," said Frederick H. Newell, Director of the U. S. Reclamation Service, in an address last night be-SATURN, U. S. collier, ar. San Diego fore the Hawaiian Engineers Association, the last public address he will make n Honolulu. This expressed opinion may be taken as the summing up of the mpressions he has gained during the trips of inspection he has made in company with Governor Frear throughout every island of the group,

To the engineers, whom he was addressing on the engineering work of the Reclamation Service, Mr. Newell expressed himslf an optimist in all that pertained to the development of Hawaii along the lines of an American community. He outlined the work to be done here in a reclamation sense, stating that the SHERIDAN, U. S. A. T., ar. Hon. from first thing that might be expected as a result of the visit of Secretary Garfield and his own inspection was the appointment of a hydrographer to come to Hawaii to study the stream flow, the rainfall and the water question from the CORONADO, Am bkt., Potter, ar. S. F. TAISEI MARU, Jap. tr. sp., Furnya, standpoint of an irrigationist. A good topographical survey of the Islands would be made to find out the locations of the watersheds in their relation to possible reservoir sites, and then would come the actual construction work.

Mr. Newell went very fully into the engineering work being done elsewhere in reclaiming arid land, illustrating his address with a number of lantern illustrations. These photographs were of works under construction and completed.

The address was listened to with the greatest interest by about a hundred engineers, members of the association and others, the meeting being one of the largest ever held under the association auspices. The meeting was in the rooms of the association in the Kapiolani building,
